

Quality Policy Statement

ChemDesign is a leading contract chemical manufacturer of specialty chemicals, and our goal is to meet or exceed the expectations of our customers by delivering product on-time that meets all customer specifications.

We strive to continuously improve the quality of our processes and services through the utilization of a sound Quality Management System adhering to ISO 9001:2015 Standards.

We commit to ongoing training, process optimization, reliability, and continuous quality improvement to eliminate errors, resulting in the highest degree of customer satisfaction.

We commit to meeting our customers' needs and developing strong partnerships based on open communication, process improvement and value creation for all stakeholders.

We focus on continuous improvement in Environmental, Health, Safety and Security performance to ensure sustainability for the future.
